BATTERY OPERATED FRY OIL FILTER MACHINE NO MORE LEADS

ONE MACHINE – TWO FUNCTIONS

The Battmobile was developed to function extremely proficiently and on the highest level on the TWO CORE principals of oil management:

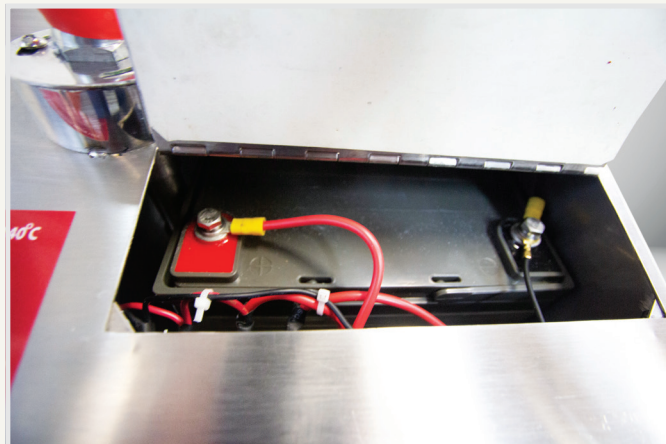

1. Being able to flush down and clean multiple fryers in a very safe way either in one location and/or various areas of the food service complex.
2. Filtering oil up to 2 times via various filter systems and in a very safe, proficient and cost effective manner.

The use of **MIRACLE** Filter Aid Powder will significantly extend the life of oil even further by removing FFA & Carbon.

BATTERY OPERATED FRY OIL FILTER MACHINE

BATTERY OPERATED FRY OIL FILTER MACHINE

BATTMOBILE BATTERY

The BATTMOBILE Mobile Oil Filtration

- BATTMOBILE is battery operated,
- Portable in design
- BATTMOBILE runs on DC
- BATTMOBILE offers twice onboard filtration

Simply drain the fry oil into the BATTMOBILE washable filter basket which captures large debris.

Turn the machine on, oil is then filtered via a filter pad, recycled and returned to fryer.

- Quick to recharge
- External battery charging system

WARRANTY

Battery 6 months unless it is deemed that the battery is continually used below 80% or 10 volts The Battmobile is designed and built to withstand the rigors of normal daily restaurant use. If within the first 12 months from date of purchase the Battmobile fails due to a defect in materials or workmanship simply call us and we will repair or replace it free of charge.

To be eligible for warranty or replacement the unit must not have been tampered with by non-certified personnel. Failure to adhere with this policy will void the warranty.

Any damage sustained due to wilful neglect, misuse, inappropriate use, setup or installation, and/or non-adhered to operating procedures is not covered under this warranty.

We assume no responsibility for damage to property, product, product or personnel resulting from wilful neglect, misuse, inappropriate, untrained or careless use of the Battmobile.

Primary Materials	Stainless Steel type 304
Max. Operating Temperature	Unit will safely withstand 180°C
Safe Operating Temperature	140°C
Overall Dimensions (fully assembled)	Length – 800mm Width – 350mm Depth – 440mm
FILTRATION Filter Paper	Pre Filter bag 200 micron 12 micron 510 x 365
POWER Pump Battery Charger	12VDC HP Electric Motor 12VDC 18AH Sealed Lead Acid Gel 35amp/hr AGM Gel 12 volt 6 Amp Auto trickle maintaining
Pump Flow Rate (unobstructed)	18 litres per minute
Tank Capacity	40 litres max. to top of tank
Cart Wheels	Four 8x1.75 Ball Bering Wheels
